ARCHIVES ITALIENNES DE BIOLOGIE

FONDÉES PAR A. MOSSO ET CONTINUÉES PAR V. ADUCCO

PUBLIÉES PAR G. MORUZZI

AVEC LE CONCOURS DU CONSIGLIO NAZIONALE DELLE RICERCHE

COMITÉ DE RÉDACTION

ALF BRODAL (Oslo)

GIUSEPPE MORUZZI (Pisa)

MASAO ITO (Tokyo)

OTTAVIO POMPEIANO (Pisa)

YVES LAPORTE (Toulouse)

J. M. SPRAGUE (Philadelphia)

RITA LEVI MONTALCINI (St. Louis) CARLO TERZUOLO (Minneapolis)

TOME 116

1978

PISA

UNIVERSITÀ DEGLI STUDI

Rédaction: *Via S. Zeno, 31 - 56100 Pisa (Italie).*

Administration: « *Archives italiennes de Biologie* » - Università - Lungarno
A. Pacinotti, 43 - 56100 Pisa (Italie).

Imprimerie: « *E. Ariani* » e « *L'Arte della Stampa* » - 50135 Firenze (Italie).

TABLES DES MATIÈRES

FASCICULE 1, JANVIER 1978

1. Influence du système olivo-cérébello-bulbaire sur les neurones moteurs de la moelle lombaire chez le chat après administration d'harmaline. M. WEISS	Pag. 1
2. Afferent fibers and sensory ganglion cells within the oculomotor nerve in some mammals and man. II. Electrophysiological investigations. E. MANNI, R. BORTOLAMI, V. E. PETTOROSSO, M. L. LUCCHI and E. CALLEGARI	16
3. Vagal and reticular influence on the first-order proprioceptive neurons of the mesencephalic trigeminal nucleus in birds. E. MANNI, R. BORTOLAMI, M. PASSATORE, R. PERINETTI CASONI and M. L. LUCCHI	25
4. Influence of internal shortening on time course of active state in rat papillary muscle. C. REGGIANI, L. RICCIARDI, C. POGGESI and R. MINELLI	43
5. Sympathetic nerve fibers ingrowth in the central nervous system of neonatal rodent upon intracerebral NGF injection. M. G. MENESINI CHEN, J. S. CHEN and R. LEVI-MONTALCINI	53
ANALYSES	85

FASCICULE 2, JUIN 1978

1. Single unit firing patterns in the vestibular nuclei related to saccadic eye movements in the decerebrate cat. T. MERGNER and O. POMPEIANO	Pag. 91
2. Responses of vestibular units to visual input. G. B. AZZENA, E. TOLU and O. MAMELI	120
3. Commissural, perihypoglossal and reticular afferent projections to the vestibular nuclei in the cat. An experimental	

anatomical study with the method of the retrograde transport of horseradish peroxidase. O. POMPEIANO, T. MERGNER and N. CORVAJA	Pag. 130
4. Responses of cerebellar fastigial neurons to afferent inputs from neck muscles and macular labyrinthine receptors. L. C. ERWAY, B. GHELARDUCCI, O. POMPEIANO and M. STANOJEVIĆ	173
5. Responses of cerebellar fastigial neurons to stimulation of contralateral macular labyrinthine receptors. L. C. ERWAY, B. GHELARDUCCI, O. POMPEIANO and M. STANOJEVIĆ	205
6. FUORTES M. G. F. (1917-1977)	225
ANALYSES	231

FASCICULES 3-4, SEPTEMBRE 1978

1. Two functional types of neurons in the superficial layers of monkey superior colliculus. G. RIZZOLATTI	Pag. 235
2. On defining neural plasticity. H. A. BUCHTEL	241
3. Movement aftereffects in the visual cortex. R. VON DER HEYDT, P. HÄNNY and C. ADORJANI	248
4. Movement and spectral sensitivity of cells on the inferior anterior bank of the lunate sulcus. A. BERTULIS, C. GULD and M. A. LENNOX-BUCHTHAL	255
5. Possible role of acetylcholine in the mediation of non-retinal input to the lateral geniculate nucleus region. J. M. GODFRAIND and C. VERAART	262
6. Adaptation of the rabbit's vestibulo-ocular reflex to modified visual input: importance of stimulus conditions. H. COLLEWIJN and A. F. GROOTENDORST	273
7. Role de la vision dans le déclenchement de reactions posturales rapides. P.-P. VIDAL, M. GOUNY et A. BERTHOZ	281
8. Neurobiology of re-organizing retino-tectal connections in fish. R. F. MARK, L. R. MAROTTE and J. WYE-DVORAK	292
9. Changes in signal transmission by neurons of the cat lateral geniculate nucleus by acute deafferentation and early degeneration. O.-J. GRÜSSER	298
10. Late effects of deafferentation and signs of plasticity in the lateral geniculate nucleus of the adult cat after monocular lesions of the retina. U. T. EYSEL	309

11. Some aspects of visual capacity in monkeys and man following striate cortex lesions. L. WEISKRANTZ	Pag. 318
12. On the question of neuronal plasticity in the mature visual cortex. U. YINON	324
13. Role of Siamese cat's crossed and uncrossed retinal fibres in pattern discrimination and interocular transfer. C. A. MARZI and M. DI STEFANO	330
14. Some neural and non-neural factors in visual development of the kitten. R. D. FREEMAN	338
15. Visual development in the human infant. J. ATKINSON and O. BRADDICK	352
16. Maturation of contrast evoked potentials and development of visual resolution. H. SPEKREIJSE	358
17. Évolution des propriétés des cellules du cortex visuel chez le chaton. M. IMBERT, P. BUISSERET, Y. FREGNAC et E. GARY-BOBO	370
18. The development of spatial resolving power of LGN cells and its susceptibility to blur and strabismus. H. IKEDA and K. E. TREMAIN	375
19. Effects of artificial anisometropia and strabismus on the kitten's visual cortex. C. BLAKEMORE and H. M. EGGERS.	385
20. Binocular interaction in strabismic kittens and adult cats deprived of vision. L. MAFFEI	390
21. Requirements for experience-dependent changes in the circuitry of cat visual cortex. W. SINGER	393
22. Postnatal development of the projection from the striate cortex to the superior colliculus in the rabbit. H. HOLLÄNDER AND H. DISTEL	402
23. The development of the visual system in the sheep. D. WHITTERIDGE	406
24. Selective impairment of behavioural contrast sensitivity in kittens after exposure to periodic gratings. A. FIORENTINI and L. MAFFEI	409
25. Cats reared in stroboscopic illumination: velocity characteristics of area 18 neurons. G. A. ORBAN, H. KENNEDY, H. MAES and B. AMBLARD	413
26. Postnatal development of ocular dominance columns in layer IV of the cat's visual cortex, and the effects of monocular deprivation. M. P. STRYKER	420

27. The effect of monocular pattern deprivation on the signal transmission by neurons of the cat lateral geniculate body. U. T. EYSEL, O.-J. GRÜSSER and K.-P. HOFFMANN .	Pag. 427
28. Reversal of deprivation effects in the monkey's visual system. F. VITAL-DURAND, L. J. GAREY and C. BLAKEMORE . .	444
29. The effects of pressure blinding in monocularly deprived kittens. M. HAWKEN, R. MARK and C. BLAKEMORE . .	448
30. Psychophysical and neurophysiological investigations of the effects of early visual deprivation in the cat. K.-P. HOFFMANN, H. HEITLÄNDER, P. LIPPERT and R. SIRETEANU .	452
31. Postnatal development of interhemispheric connections of the cat visual cortex. G. M. INNOCENTI	463
32. Direction preference of optokinetic responses in monocularly tested normal kittens and light deprived cats. J. VAN HOF - VAN DUIN	471
